ABOUT THE ESSENTIALS OF DENTISTRY

Essentials of Dentistry (Essent Dent) is a peer-reviewed, open-access, online-only journal published by İstanbul University-Cerrahpaşa.

Essentials of Dentistry is a continuously published journal in English. The journal has moved to continuous publication by volume from Volume 4. Rather than publishing content into three online issues per year, all articles are published into a single annual (January-December) volume which will fill throughout the year as each new article is published.

Continuous publication model allows articles to be immediately released online rather than waiting for other articles in the issue to be completed. This model enhances the visibility and accessibility of the latest developments in the field.

Abstracting and Indexing

Essentials of Dentistry is covered in the following abstracting and indexing database;

- TUBITAK ULAKBIM TR Index
- DOAJ
- EBSCO

All content published in the journal is permanently archived in Portico.

Aims, Scope, and Audience

Essentials of Dentistry aims to contribute to the literature by publishing manuscripts of the highest scientific caliber in all fields of dentistry. The journal publishes original articles, reviews, rare case reports, and letters to the editors that adhere to ethical guidelines. The scope of the journal includes, but is not limited to, periodontal diseases, dental implants, oral pathology, oral and maxillofacial surgery, endodontics, oral diseases, and restorative and esthetic dentistry.

The journal's target audience includes specialists, researchers, and professionals who are working in and interested in the field of dentistry and related disciplines.
